EMT/Paramedic: This program has been submitted to the Kentucky Board of Emergency Medical Services for CE credit. (Credit Pending.)

Maximum 7 Hours Partial credit will be given on a per hour basis.

Objectives

- Discuss modalities for cardiac stress testing to diagnosis myocardial ischemia and determine best treatment for best patient outcomes.
- Discuss the high risk of recurrent events in the Post MI and Stroke Patient.
- Understand current guideline recommendations for antiplatelet therapy post-PCI.
- Discuss the importance of organization of care among EMS and hospitals and the significant reduction in time to reperfusion in patients with ST-segment–elevation myocardial infarction as well as in-hospital mortality
- Understanding and managing heart failure and kidney failure together.
- Understand the impact of the change made to e allocation system.
- Understand and differentiate the 5 different types of Pulmonary Hypertension and identify when to consult cardiology.

Attendance Requirement

Must stay for entire session and complete an evaluation to be awarded contact hours.

In the event of inclement weather, please listen to KD Country - 99.5 FM or call Southern AHEC at (606) 682-0675
